

DAVID MATIJEVIĆ GOODMAN

About me

I am a second-year Applied Computer Science student from Croatia. Despite the long time that practicing programming takes, I still dedicate my free time to my passions: photography, filmmaking, playing the clarinet and travelling to learn about new cultures.

These hobbies have improved my creativity, teamwork, and communication skills, which I bring to every workplace.

Education

2024-present

**Thomas More University of Applied Sciences
(Bachelor of Applied Computer Science)**

Geel, Belgium

2020-2024

**Technical High school Pula
(Mechatronics Technician)**

Pula/Pola, Croatia

Technical skills

Web development

I have the strongest experience in web development, from web design to full-stack JavaScript and web applications built with the TALL stack.

Python & Java

I have experience working with Python and Java, including Python libraries for machine learning.

Data Analysis

I can scrape, clean, and explore data, perform EDA, and create clear visualizations and valuable insights.

Soft skills

Teamwork & Leadership

I am a strong team player who often takes initiative and naturally steps into leading roles, such as in my role as Scrum Master.

Presentation

I am a confident speaker who is comfortable with presenting or pitching in front of large groups.

Client Communication

I am proactive in client communication and help everyone to be on the same page.

Persistence

I am persistent in my work and motivated to improve, even when facing setbacks or challenges.
